This document contains some of my previous and current work.

## TRADE KEY EGYPT & GLORY

### CURRENT WORK

#### VICE PRESEDENT

My main job was improving the company by changing it from paper-based company to fully systemized company.

First step was integrating an ERP system to handle all the company processes like warehouses, digital invoices, operations, accounting, finance, HR, etc.

This step boosted the company sales, reduced the wasted time and improved the company vision.

Second step was making the company digitally exists so I have created a website and focused on social media marketing.

# DELTA TOURS

## TRAVELING AGENCY

### CONSULTANT AND DEVELOPER

My main job was increasing the company sales and awareness by providing an ecommerce website for helping tourists book online from all over the world by a simple and easy website.

First thing was focusing on the website development and launching then focused on the digital-marketing to increase the website traffic.
